PROFILE SUMMARY

- Software Engineer with 6+ years of experience in design, development, and maintenance of enterprise-grade applications. Strong expertise in .NET Core, .NET Framework, C#, WPF, Web API, WCF, and Angular, with hands-on experience in PostgreSQL and SQL Server.
- Proven ability to work in Agile and Waterfall environments, contributing across the entire SDLC from requirements analysis to deployment and production support. Experienced in building mission critical healthcare and utility domain applications.

SKILLS

Programming Languages: C#
Frameworks & Technologies: .NET Core, .NET Framework, WPF, WCF, Web API, Angular
Frontend Technologies: Angular, TypeScript, HTML, CSS
Databases: MS SQL Server, PostgreSQL
Tools: Microsoft Visual Studio 2022, Visual Studio Code, Jira, Git
Cloud: Azure (AZ-204 Certified)
Operating Systems: Windows

WORK EXPERIENCE

Software Development Engineer

Siemens Healthineer | Bangalore, India

July 2022 – Present

- Developing software for hybrid medical imaging scanner systems (SPECT) used in clinical and healthcare environments.
- Responsible for end-to-end software development, including requirements analysis, system design, coding, unit testing, defect fixing, and long-term maintenance.
- Designed and enhanced scanner subsystems, improving system stability and operational reliability by ~25% through defect reduction and performance optimizations.
- Developed and maintained .NET based console applications in compliance with medical software quality and regulatory standards.
- Worked extensively with C#, .NET Framework, Angular.
- Actively participated in Agile Scrum ceremonies, including sprint planning, daily stand-ups, code reviews, and continuous integration.
- Performed root cause analysis and debugging of production issues, improving system uptime and reducing incident resolution time by ~30%.

Senior Systems Engineer

Infosys Ltd | Bangalore, India

December 2019 - July 2022

- Developed and supported a web-based enterprise application for Florida Power & Light (FPL), used by 1,000+ field employees.
- Implemented business features for work order management, work assignment, and task tracking.
- Designed and developed RESTful Web APIs using .NET Core, following microservices architecture.
- Used Entity Framework Core, LINQ, and Dependency Injection for backend development.
- Integrated backend services with frontend components using Angular, TypeScript, HTML, and CSS.
- Worked closely with business analysts, QA teams, and client stakeholders to deliver high-quality, defect-free releases.
- Contributed across all phases of the SDLC, including development, testing, deployment, and production support.

RECOGNITION & CERTIFICATIONS

- Awarded the “Insta Award” at Infosys for handling end-to-end development of a finance module.
- AZ-204 Microsoft Certified: Azure Developer Associate.
- Infosys Certifications: .NET Core Web API Developer. | Certified C# Programmer.

EDUCATION

BE (ECE) Bangalore Institute of Technology, Bengaluru Year:2019 | CGPA: 7.81/10.0
